TOWN OF LEESBURG
LEAF COLLECTION SCHEDULE
PUBLIC NOTICE

The Town of Leesburg Department of Public Works will be collecting leaves placed at the curb for bulk collection beginning Monday, October 18, 2004. Your leaf collection will depend on the quadrant in which you live. Market Street divides the town north and south; King Street divides the town east and west.

Leaves will be collected on the following schedule:

Southwest & Southeast -	October 18 to October 22 November 01 to November 05 November 15 to November 19 November 29 to December 03
Northeast & Northwest -	October 25 to October 29 November 08 to November 12 November 22 to November 26 December 06 to December 10
** All quadrants -	December 13 to December 17

Please rake your leaves to about four feet from the edge of the curb **by the first day** of your collection week. **Please do not place leaves in front of or into storm drains.** On streets without curb and gutter, residents should place leaves as close as possible to the property line. Inclement weather (heavy rains or snow) or a heavy fall of leaves may extend the collection period for the affected quadrants.

The last day for bulk leaf pickup will be Friday, December 17, 2004, after which leaves must be set out in covered trash cans with handles or biodegradable paper yard waste bags, for recycling.

For more information on leaf removal, please call the Leesburg Public Works – Street Division at **703-737-7073** or visit our web site **www.leesburgva.gov**

** Crews will go over all quadrants in town during this week to get any remaining leaves that may have been missed or that have fallen after a scheduled weekly pickup.
